Scope of Services and Philosophy

The FSTS serves all of Montana's fire departments, companies and districts. This audience consists of an estimated 11,000 members in 432 fire companies, 96% of which are volunteers. The FSTS develops and operates programs which make local government effective in their mission of providing quality fire and rescue service to the public. FSTS supports and promotes:

(a) "standard of care" operations, (b) self-sustained training programs within local organizations, (c) sharing of resources between organizations, and (d) individual growth of emergency service personnel through training.

Goals Include: IC/Communications, Drafting/Pumping, & Fire Attack
